

# MATILDA

## Book Nook

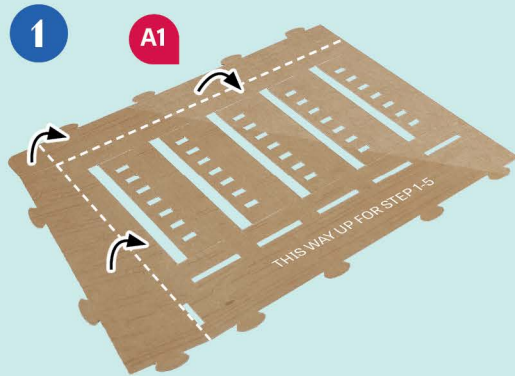

Slot together cardboard kit

### Building Tips

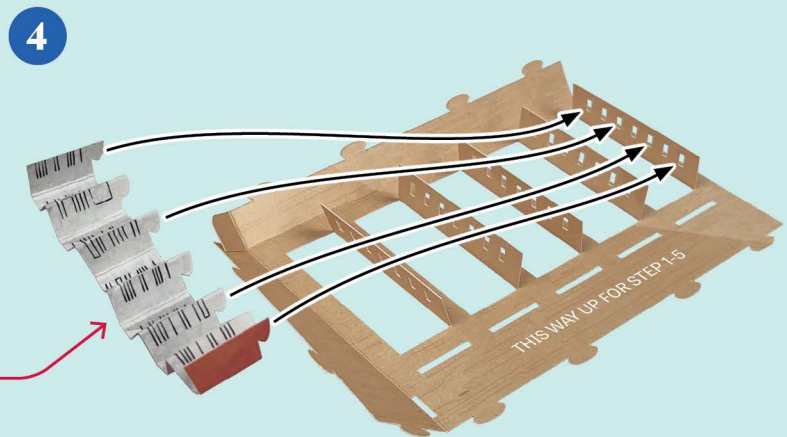

1. Use the **Removal Tool** to push out the smaller pieces of card.
2. Pre-crease all the folds before you build each step unless otherwise stated.
3. If you get stuck, try looking at the next few steps to help you out.
4. **Don't rush!** Make yourself a cuppa and take your time while building.

box section

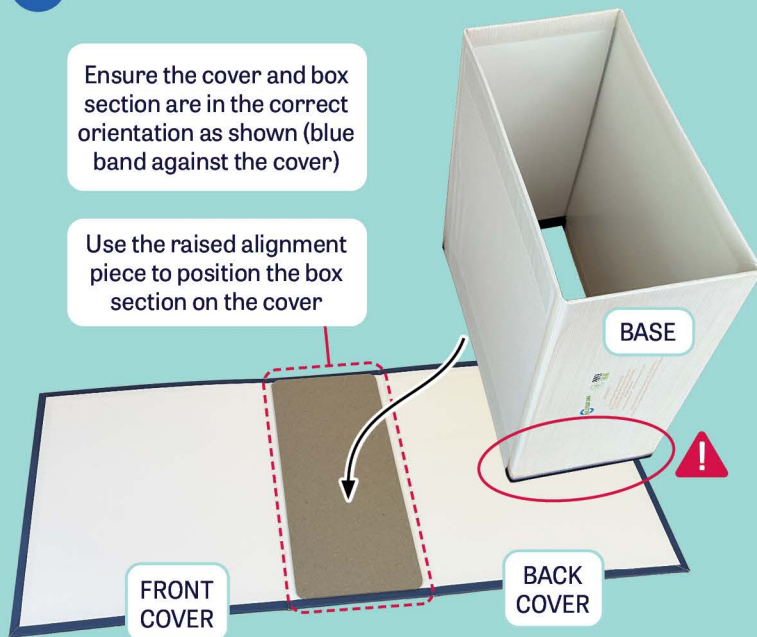

Box Section

57

Ensure the cover and box  
section are in the correct  
orientation as shown (blue  
band against the cover)

Use the raised alignment  
piece to position the box  
section on the cover

**READ THESE TIPS  
before the next step:**

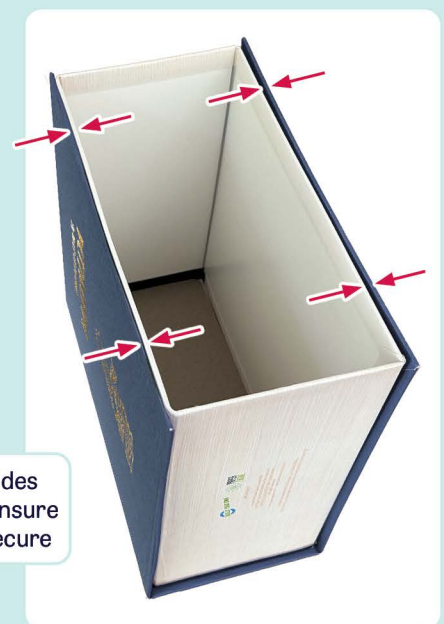

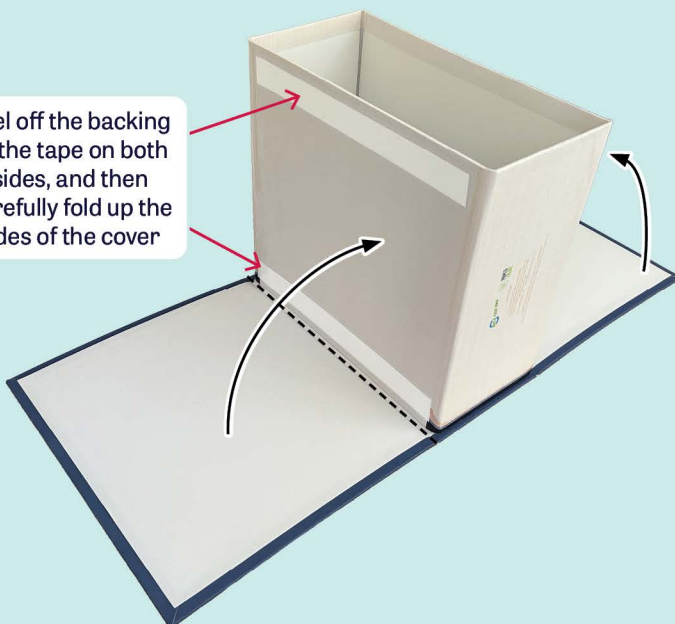

Once the tape is stuck it  
is very hard to remove, so  
**check twice, stick once!**

Fold up the sides of the cover to check they  
are straight and you have an even border of  
the cover around the box section

Double check the cover  
and box section are in the  
correct orientation

58

Peel off the backing  
of the tape on both  
sides, and then  
carefully fold up the  
sides of the cover

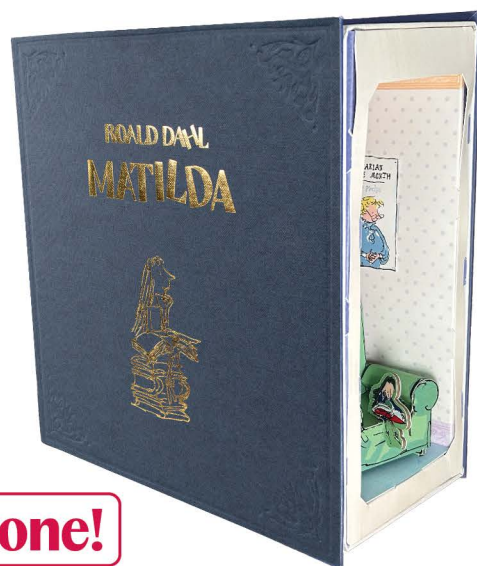

Pinch the sides  
together to ensure  
the tape is secure

59

Done!

60

If you have a **battery powered** tealight, like the one pictured above, you can use it in your Book Nook as a light\*

Only use an **LED** tealight, paper and fire do not mix well!

\* Tealight not included in this kit

61

Remove the ceiling light from the Book Nook, and take out the lightbulb as shown so you're just left with the lampshade

62

63

Push the lampshade over the 'flame' until it **clicks** into place
